FEDERAL GOVERNMENT EMPLOYMENT

JANUARY 1964

NOTE TO ANALYSTS

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April 1963.

INTRODUCTION:

Employees of the Government of Canada, including its corporations and agencies totalled 332,67 at the end of January 1964. This represents a decrease of 1,261 or 0.4 p.c. from December 1963 and an increase of 2,477 or 0.7 p.c. from January of last year.

Total earnings for the month of January 1964 amounted to \$135,003,000, a decrease of \$2,690,000 or 2.0 p.c. from December 1963.

The decline in staff strength and earnings from December 1963 occurred mainly in the proprietary corporations.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

Employees in Departmental Branches, Services and Corporations totalled 201,793 at the end of January 1964, a decrease of 215 or 0.1 p.c.

Total earnings of these employees amounted to \$77,784,000 at the end of January 1964, an increase of \$270,000 from December 1963. The indicated decrease of \$12.1 million from January 1963 occurred because payroll in the earlier month included \$15.8 million in retroactive payments resulting from increases to certain salaried employees.

^{1/} Effective August 21, 1963 the Department of Defence Production absorbed a substantial portion of the activities of the Department of Public Printing and Stationery. Public Printing and Stationery, in turn, assumed part of the responsibilities of Defence Production on October 3, 1963 and was renamed the Queen's Publisher. Details of the staff affected are not available and the data has accordingly been shown under the respective former Departments.

^{2/} Includes "North Atlantic Treaty Organization" and "Canada's Civilian Participation as a member of the International Commissions for Supervision and Control in Indo-China".

Notes and Definitions:

Department — For purposes of this table only, the term "department" is broadened to include departmental branches or services having a separately administered personnel office.

Hiring — The initial appointment of an individual to the reporting department.

Separation — Termination of service of an individual in the reporting department.

* Rates are omitted for departments with less than 100 employees as small changes in the number hired or separated result in abnormal changes in rates. Aggregates for these departments are given in "Total—Departments with less than 100 employees", as well as in "Total—All Departments".

-- Less than one.

Note: Figures may not add due to rounding.

FEDERAL GOVERNMENT EMPLOYMENT

MARCH 1964

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1963.

INTRODUCTION:

Employees of the Government of Canada, including all of its corporations and agencies, totalled 332,660 on March 31, 1964. This represents an increase of 229 from the end of February 1964 and an increase of 4,020 or 1.2 per cent from March 31 of 1963.

Total employee earnings for March 1964 amounted to \$136,694,000, an increase of \$4,581,000 or 3.5 per cent over February and of \$10,421,000 or 8.3 per cent over March of last year.

In the fiscal year April 1, 1963 to March 31, 1964 staff earnings amounted to \$1,631 millions compared with \$1,568 millions in the year ended March 31, 1963.

March 1964

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

Employees in Agency and Proprietary Corporations and Other Agencies totalled 130,760 at the end of March 1964 as compared to 130,755 for February 1964 and 129,819 for March 1963.

Earnings of employees in this group amounted to \$57,885,000 in March 1964, up \$2,821,000 or 5.1 per cent from the previous month and up \$4,115,000 or 7.7 per cent from March 1963. The increase in employee earnings during this month is accounted for mainly by the Canadian National Railways.

Fiscal year comparison show that the payroll total of \$698.7 millions in the year ended March 31, 1964 were 3.1 per cent higher than the \$678.0 millions in the twelve months ended March 31, 1963.

(1) Effective August 21, 1963 the Department of Defence Production absorbed a substantial portion of the activities of the Department of Public Printing and Stationery. Public Printing and Stationery, in turn, assumed part of the responsibilities of Defence Production on October 3, 1963 and was renamed the Queen's Publisher. Details of the staff affected are not available and the data has accordingly been shown under the respective former Departments.

(2) Includes "North Atlantic Treaty Organization" and "Canada's Civilian Participation as a member of the International Commissions for Supervision and Control in Indo-China".

APRIL 1964

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in Part C of this report.

INTRODUCTION:

The statement of hirings and separations data for salaried employees for the first quarter of 1964 is presented in table 10 of this report.

Employees of the Government of Canada including its corporations and agencies, numbered 335,552 at the end of April 1964, an increase of 0.9 p.c. over March 1964 and 1.4 p.c. over April 1963.

Total earnings of these employees for April 1964 amounted to \$137,767,000, an increase of \$1,073,000 or 0.8 p.c. over March 1964 and \$8,652,000, or 6.7 p.c. over April of the previous year.

April 1964

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

The Agency and Proprietary Corporations and Other Agencies had a staff strength of 132,670 at the end of April 1964, an increase of 1.5 p.c. from the previous month, and of 1.2 p.c. from April of the preceding year.

Earnings of these employees amounted to \$58,185,000 in April 1964. This was very slightly higher than in March and 4.9 p.c. above the April 1963 payroll.

As usual the Canadian National Railways accounted for most of the staff and payroll in this table. It recorded a minor gain in both over March. Northern Transportation Company Limited reported very substantial increases due to the opening of the northern navigational season. The National Harbours Board also increased its staff and payroll with the commencement of the 1964 season of navigation.

FEDERAL GOVERNMENT EMPLOYMENT

April 1964

The principal variations in staff strength for the month of April 1964, when compared with March 1964, are outlined in the following table:

Function	Administrative Unit	Change and Reason(1)
Transportation and Communications:		
Waterways	Public Works	S.C. and C. increased - locks and dams readied for season of navigation.
Natural Resources and Primary Industries:		
Fish and Game	Fisheries	S. and S.C. up - seasonal activities - return of Fisheries Wardens.
Forests	Forestry	C. declined - end of winter works projects.
Lands: Settlement and Agriculture	Agriculture	P.R. and C. up - seasonal preparation for spring seeding, animal care, experimental farm work, etc.
Other	Northern Affairs and National Resources	C. declined - completion of winter works projects.

(1) Abbreviations have been used as follows: salaried staff - S.; Prevailing Rate - P.R.; Casuals - C.; Ships' Officers - S.O.; Ships' Crews - S.C.

Note: The following observations are pertinent to Table 10 which contains a quarterly analysis of hirings and separations in departmental branches, services and corporations.

1. Citizenship and Immigration - High January separations due to transfer of Immigration Officers to the Department of Customs and Excise.
2. Fisheries (Main Dept.) - High February separations due to late receipt of statements covering end of season release of Fisheries Wardens.
3. Northern Affairs and National Resources - Separations increased in March due to transfer of National Museum of Canada to the Department of the Secretary of State. This change was effective February 3, 1964.
4. National Revenue - Taxation - Increase in seasonal hirings to process Income Tax Returns.

Notes and Definitions:

Department -- For purposes of this table only, the term "department" is broadened to include departmental branches or services having a separately administered personnel office.

Hiring -- The initial appointment of an individual to the reporting department.

Separation -- Termination of service of an individual in the reporting department.

* Rates are omitted for departments with less than 100 employees as small changes in the number hired or separated result in abnormal changes in rates. Aggregates for these departments are given in "Total--Departments with less than 100 employees", as well as in "Total--All Departments".

-- Less than one.

Note: Figures may not add due to rounding.

PART C - EXPLANATORY NOTESSECTION 1 - INTRODUCTIONHistory

These statistics are derived through a monthly survey of Government of Canada employment and have been published since April 1952. The monthly report has had three different titles. From April 1952 to August 1953 it was known as "Government of Canada Employment and Payrolls". In the period September 1953 to March 1954 the title was "Federal Government Employment and Payrolls" and since April 1954 the name has been "Federal Government Employment". The monthly series replaces one formerly issued annually under several different titles, the first of which was "Statistics of the Civil Service of Canada". This report was issued annually for the fiscal years ended March 31, 1925 to 1931. Combined reports with the above title were issued for the fiscal years ended 1932 to 1934; 1935 and 1936; and 1937 to 1939. The title was changed to "Summary Statistics of the Civil Service of Canada" and such reports were issued in a combined form for the fiscal years ended 1940 to 1942 and for each of the fiscal years ended 1943 to 1948. The title became "Summary Statistics, Federal Civil Service Employment and Payrolls" for the year ended March 31, 1949. For the years ended March 31, 1950, 1951 and 1952 three reports were issued entitled "Federal Civil Service Employment and Payrolls".

Method of Presenting the Statistics

This monthly report is composed of three parts. INTRODUCTION summarizes (in Table 1) data on all persons employed by the Federal Government and its agencies. PART A presents (in Table 2) employment data of agency and proprietary corporations and other agencies by province. A list of these appears on page 35. PART B consists of Tables 3 to 11 which present statistics relating to the departmental branches, services and corporations listed in the Financial Administration Act plus a few which are not listed therein. Data on these are detailed in the table of contents on page 3. A table on numbers and rates of hirings and separations for salaried employees is included quarterly.

Comparability with Former Survey

The statistical series produced on an annual basis for the years 1925 to 1952 was intended to include the number of permanent and temporary employees in the general administrative government services (this broadly speaking, included those coming under the Civil Service Act). In addition, the earnings of certain classes of employees referred to as "non-enumerated" classes were shown in the publication. The survey did not include a count of these "non-enumerated" classes. Since there was a distinct variation in the interpretation by departments of what constituted these groups, there were substantial differences between departments in the types of employees and earnings included in the annual series.

The present series which commenced in April 1952 includes employees not formerly counted in the publications as well as a number of government services not previously included, and consequently the statistics should not be compared with the former annual series.

Extent of Coverage

Includes: Departments (including deputy ministers) and departmental crown corporations
Proprietary and Agency Crown Corporations and other agencies
Members of Boards, Commissions and other government organizations, who serve on a full time basis with salaries fixed accordingly.
Royal Canadian Mounted Police

Excludes: Governor General and Lieutenant-Governors
Members of Parliament and Senators
Ministers of the Crown
Mines and Technical Surveys: field parties
Post Office: employees paid from Postal Revenues
Justice: Solicitor General and judges
National Defence: members of the Armed Forces

Extent of Coverage - Concluded

Excludes: Canada Council

National Productivity Council

International organizations, the expenses of which are shared by Canada

Employees of firms under contract to the Government of Canada

Officers of Boards, Commissions and other government organizations who are paid on a per diem basis or receive a nominal honorarium for their services.

Comparability between Numbers and Earnings

The user of these statistics is advised to avoid making direct comparisons between the numbers of employees reported and the earnings reported, the reason for this being that numbers relate to the last day of the month wherever possible and otherwise to the final pay period of the month. Since in certain categories, especially casual employment, considerable fluctuations in numbers employed frequently occur during a month, it will be seen that a comparison between the earnings of all persons employed during the month and the number on strength at the end of the month would, in many cases, not be valid.

Uses of these Statistics

Users of the statistics fall into four main categories. These are:

1. Those who wish to use summary data and identify government as an employer. In this category are included those persons who wish to relate the significance of government as an employer to business in general.
2. Persons interested in an analysis of the administrative structure of the Federal Government. These, in the main, include government departments themselves. The administrative analyses of data as presented in tables 8 and 9 of the publication permit a comparison between the number of staff employed as reported in the publication and the number of positions established for each administrative branch of the government as published in the annual Estimates of Canada. This is, of course, mainly an administrative use which is of value to the Treasury Board and to the Civil Service Commission as well as the various government departments. A further administrative use of the data is to determine the significance of the labour input factor through an analysis of wage costs as a proportion of total expenditures by vote or other administrative unit.
3. Persons wishing to make a comparison between the Federal Government and other levels of government or between the Federal Government now and in past years do so through the use of the function analysis which is described further commencing on page 37.
4. The final group of users are those who are interested in government as an employer in each of the principal industries. For this purpose the data must be analysed on a Standard Industrial Classification basis. This analysis, to date, has not been undertaken but it is intended that it should be in the near future. The application of this analysis to the Federal Government and following afterwards to the provincial and municipal governments will permit the assessment of the degree to which governments and their corporations have become significant employers in each industry.

The users besides government themselves include persons and firms undertaking labour research on behalf of industry, provincial and municipal governments, university research officers, business firms and private citizens. In addition, a substantial number of enquiries originate in the House of Commons and the press.

A description of the sources of data and the means by which the information is submitted and prepared for use is contained in the following outline.

SECTION 2 - DESCRIPTION OF THE TABLESINTRODUCTION - TOTAL FEDERAL GOVERNMENT EMPLOYMENT AND PAYROLLS (TABLE 1)

Table 1 assembles employees belonging within the following categories:

- (A) Agency and proprietary corporations and other agencies:
 - (1) agency corporations
 - (2) proprietary corporations
 - (3) other agencies

Table 1 assembles employees belonging within the following categories - Concluded

(B) Departmental branches, services and corporations:

- (1) departmental branches and services
- (2) departmental corporations

The first three record as gross earnings all monies earned by the employees covered while the later two combine overtime earnings and retroactive payments reported with regular earnings to obtain gross earnings.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES (TABLE 2)

Statistics for these organizations are collected in two ways: (1) directly from the corporation or agency; (2) through the Employment Section of the Dominion Bureau of Statistics. The statistics reported do not permit a presentation by class, i.e. salaried, casuals and others, etc., hence composite figures are published. In most cases, employees reported represent the staff strength during the final pay period of the month. Gross earnings are reported and they accordingly include overtime and other types of special payments in addition to regular salaries and wages. Organizations included in Table 2 are listed by group as follows:

Agency Corporations

Atlantic Development Board	Defence Construction (1951) Ltd.
Atomic Energy of Canada Ltd.	National Battlefields Commission
Canadian Arsenals Ltd.	National Capital Commission
Canadian Commercial Corp.	Centennial Commission(2)
Canadian Patents and Development Ltd.(1)	National Harbours Board
Crown Assets Disposal Corp.	Northern Canada Power Commission

Proprietary Corporations

Canadian Broadcasting Corporation	Farm Credit Corporation
Canadian National Railways	Northern Transportation Company Ltd.
Canadian Overseas Telecommunication Corp.	Polymer Corporation Ltd.
Central Mortgage and Housing Corp.	St. Lawrence Seaway Authority
Eldorado Aviation Ltd.	The Seaway International Bridge Corp. Ltd.
Eldorado Mining and Refining Ltd.	Trans-Canada Air Lines (officially "Air
Export Credits Insurance Corp.	Canada", effective January 1, 1965).

Other Agencies

Bank of Canada	Canadian Corporation for the 1967 World Exhibition
Canadian Wheat Board	Northern Ontario Pipe Line Crown Corp.(3)
Economic Council of Canada	Office of the Custodian
Industrial Development Bank	

- (1) This body is staffed by employees of the National Research Council.
- (2) Excludes the National Conference on Canada's Centennial, which is not an agent of Her Majesty nor part of the Public Service, but draws on the staff of the National Centennial Administration.
- (3) This body is staffed by employees of Defence Research Board and Defence Construction (1951) Ltd.

The agency and proprietary corporations are listed in the Financial Administration Act under Schedules C and D respectively. The Glossary on page 44 of this report contains definitions of these two types of corporations. The "Other Agencies" though not listed or defined in the Financial Administration Act are nevertheless organizations of the Crown.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS (TABLES 3 TO 11)Salaried Employees

Salaried employees used in this report mean all persons paid on the basis of a stated annual salary rate, with the exception of the group known as "ships' officers". The latter group are excluded because of their special treatment under the Financial Administration Act. For a more complete definition of "salaried employees" see the Glossary.

The basic data is recorded in two ways:

(1) By employee:

Individual position records are maintained for the majority of salaried positions in the departmental branches, services and corporations of the Government of Canada (the remainder will be treated in the next paragraph). The position record cards contain data on the occupants of these positions. The records are amended monthly on the basis of documents received authorizing changes concerning positions and/or their occupants - thus affording a count of persons employed on the last day of the month. Because of an unavoidable time lag in the routing of position and personnel changes through normal channels, it is not always possible to include all changes in the appropriate month. The count of employees for a given month, therefore, will not always represent the exact staff strength at the end of that month. Regular earnings, being based on the annual salary rates of employees on strength at the month's end, will not necessarily equal the actual amounts paid in salaries during the month. These factors are not, however, sufficiently significant to seriously affect the validity of the statistics.

(2) By group of employees:

No individual position records are maintained for the remainder of salaried employees in departmental branches, services and corporations. Statistics on these employees are collected by means of forms or statements giving: the staff strength at the end of the month, regular earnings earned during the month, including earnings of those off-strength at the end of the month, retroactive payments and overtime payments. The following report in this manner:

Atomic Energy Control Board
 Defence Research and Development
 Fisheries Research Board of Canada
 Legislation:
 The Senate (Sessional employees)
 House of Commons (Sessional employees)
 Municipal Development and Loan Board
 National Film Board
 National Research Council including the Medical Research Council
 Office of the Representation Commissioner
 Post Office (part-time employees; employees paid from Postal Revenues)
 Royal Canadian Mounted Police (Force)
 Royal Commissions

All salaried "locally-engaged" employees in foreign countries are also reported on forms. See the Glossary for definition.

Non-salaried Employees

Statistics on non-salaried employees (prevailing rate, casuals and others) including ships' officers and crews in departmental branches, services and corporations are collected, in all cases, by means of forms or statements. These summary reports based on payroll and other records indicate the staff strength, regular earnings, retroactive payments and overtime payments. Casual "locally-engaged" employees are also reported by this means. The ships' officers, which are in fact salaried employees, are included in the non-salaried group owing to their special treatment under the Financial Administration Act.

Departmental Corporations

The Departmental Crown Corporations fall under Schedule B of the Financial Administration Act, see the Glossary for definitions. The following lists the Departmental Corporations included in the tables on Departmental Branches, Services and Corporations:

Agricultural Stabilization Board
Atomic Energy Control Board
Canadian Maritime Commission
Director of Soldier Settlement
The Director, The Veterans' Land Act
Dominion Coal Board
Fisheries Prices Support Board
Municipal Development and Loan Board
National Gallery of Canada
National Research Council
Unemployment Insurance Commission

Hirings and Separations of Salaried Employees

Data on hirings and separations of salaried employees was first published in the Federal Government Employment report for December 1959 and covered the quarter October 1 to December 31, 1959. This table, included in the monthly report once each quarter, records hiring and separation averages and rates by department. "Department", as defined for use in hiring and separation statistics only, means a department, a departmental branch or departmental service which has a separately administered personnel office. For this reason, organizations such as the Dominion Bureau of Statistics which are included under a departmental heading (Trade and Commerce) in the main tables are accorded separate departmental status in the table on staff turnover.

Each "department" is considered for purposes of turnover statistics as a separate employing agency. Consequently, movements of personnel between "departments" are treated in the same way as movements into and out of the government service. The aggregate hirings and separations are summed up in "Total - all Departments". It should be noted, therefore, that hiring and separation data for the entire Government of Canada as an employer cannot be secured from this table. The difference between this and the "Total - all Departments" would equal the number of inter-departmental movements which are, in fact, relatively few.

It should also be noted that the totals shown in this table differ from hiring and separation data published by the Civil Service Commission of Canada. The latter organization treats all staff employed under the authority of the Civil Service Act as a complete unit and consequently is concerned only with movements into and out of "Act" employment. The Commission therefore is not concerned with inter-departmental movements of employees but on the other hand is concerned with movements of staff to and from "Act" employment even when such movements occur within a department.

The glossary of terms on page 45 should be referred to for definitions of certain terms used in the table on hirings and separations. These terms are:

1. Average employment
2. Monthly average (as pertains to hirings and separations)
3. Monthly rate per 1,000 employees (as pertains to hirings and separations).

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees. The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates.

CLASSIFICATION BY FUNCTION

The statistics of departmental branches, services and corporations are classified in tables 6 and 7 by function. The purpose of providing a classification by function is to supply a means of studying the operations of governments without the complications resulting from differences in administrative establishments which occur from time to time in each government and between governments.

This analysis is useful in three ways. First it permits a detailed study of employment by the Government of Canada according to the main purposes or functions. Since these functions are not subject to the periodic changes which alter the administrative structure of the government, it is possible to develop a statistical series which, with minor exceptions, is consistent over an extended period of time. Second, since differences in administrative establishments are eliminated, it is possible to make meaningful comparisons between federal government expenditures on employment and similar expenditures by other levels of government. Third, an analysis of the relationship between expenditures on employment and total expenditures can be made with regard to each function. The use of percentages will facilitate comparisons especially between levels of governments.

The classification by function reflects the purpose served by the expenditure, and employment statistics presented on this basis have been classified in accordance with concepts evolved by the Government Finance Section of the Dominion Bureau of Statistics for the presentation of financial statistics. The following listing shows how the administrative detail has been applied to the various functions and will serve to indicate clearly the meaning of each function.

GLOSSARY OF PRINCIPAL TERMS USED

1. Department: Also known as departmental services, departments are the named divisions of the Government of Canada as defined in the Financial Administration Act.
2. "Department": As used in the quarterly table on hirings and separations, the usual term department is broadened to include departmental branches or services having a separately administered personnel office. The reason for this is because movements to and from these "departments" constitute hirings and separations.
3. Crown corporation: A corporation which is ultimately accountable, through a Minister to Parliament for the conduct of its affairs, and includes the corporations named in the Financial Administration Act in Schedule B as departmental corporations, in Schedule C as agency corporations and in Schedule D as proprietary corporations.
4. Departmental corporation: A crown corporation which is a servant or agent of Her Majesty in right of Canada and is responsible for administrative, supervisory, or regulatory services of a governmental nature.
5. Agency corporation: A Crown corporation which is an agent of Her Majesty in right of Canada and is responsible for the management of trading or service operations on a quasi-commercial basis, or for the management of procurement, construction or disposal activities on behalf of Her Majesty in right of Canada.
6. Proprietary corporation: A Crown corporation which (1) is responsible for the management of lending or financial operations, or for the management of commercial and industrial operations involving the production of, or dealing in, goods and the supplying of services to the public, and (2) is ordinarily required to conduct its operations without appropriations from the Federal Treasury.
7. Other agencies: These are organizations which are not listed in the Financial Administration Act as departments or departmental agency or proprietary Crown corporations but are, nevertheless, organizations of the Federal Government. Because of the nature of these agencies, they have been classed with agency and proprietary Crown corporations.
8. Salaried employee: An employee who is paid on the basis of an annual salary rate and occupies a salaried position authorized by the Treasury Board or the Privy Council. These employees and positions may be of a continuing, term, seasonal, sessional, or part time nature. The positions are specified together with appropriate funds, in the Estimates of Canada and supplementary authorizing documents and are located in departmental branches, services and corporations subject to the regulation of the Treasury Board. Ships' officers are not classified as salaried owing to their special treatment under the Financial Administration Act.
9. Prevailing rate employee: A person employed in the Public Service of Canada whose remuneration is based on the rate of pay prevailing in the area where he is employed for the class of work he does. His rate of pay may also be based on rates prevailing in any area in Canada for work comparable to that which he does. The rates may be hourly, daily, weekly or monthly. These employees are governed by the Financial Administration Act - Prevailing Rate Employees General Regulations. They are occupants of positions authorized by the Treasury Board. The positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
10. Ships' officer: A person employed in the Public Service for duty on a ship that is the property of, or chartered by, or on behalf of, Her Majesty as a master, mate or marine engineer who is duly certified under the Canadian Shipping Act or in a position designated by the Treasury Board as that of a ship's officer. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. An annual rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act - Ships' Officer's Regulations. They are occupants of positions established by the Treasury Board, which positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
11. Ships' crew employee: A person employed in the Public Service for duty on a ship that is the property of, or chartered by, or on behalf of, Her Majesty as an unlicensed crew member. Excluded are members of the Armed Forces and Royal Canadian Mounted Police. These employees are paid on the basis of a monthly salary rate determined by the Treasury Board after consultation with the Department of Labour. They are governed by the Financial Administration Act - Ships' Crews Regulations. These employees are occupants of positions established by the Treasury Board, which positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.

2. **Casual and other employees:** All employees in Departments and Departmental corporations of the Government of Canada who are not defined as Salaried, Prevailing Rate, Ships' Officer or Ships' Crew employees.
3. **Locally-Engaged employees:** These are residents of foreign countries, employed by the Government of Canada to perform duties in the country in which they live. Their salary or wage is stated in the currency of the country where they are employed. Salaried locally-engaged employees occupy positions: (1) as Assistants; (2) in classes having the suffix U.K. i.e., Clerk 2(UK), Stenographer 1(UK), etc. While most are salaried, some are employed on a casual basis. The term "locally-engaged" excludes Canadian employees posted abroad.
4. **Regular earnings:** The basic pay of employees before deductions but excluding any special payments such as overtime, living allowances, etc. All regular earnings for the month, including those of persons off-strength at the end of the month are included in the tables where the title is used.
5. **Earnings:** For agency and proprietary corporations and other agencies this term means gross earnings before deductions, including overtime, retroactive pay and other special payments in addition to regular earnings. For departmental branches, services and corporations, earnings are limited to regular earnings plus overtime and retroactive pay.
6. **Retroactive payments:** Payments covering salary adjustments in regular earnings applicable to prior months resulting from salary increases. Data are included in the month during which the payments are made even though the adjustments may cover several months.
7. **Overtime payments:** Payments for work done beyond the normal working hours. Data are included in the month during which the payments are made even though the payments may cover overtime worked during previous months.
8. **Administrative classification:** This is an analysis of the departments and departmental corporations to provide statistical detail on their principal units i.e. branches, boards, commissions, etc. These principal units cover most of those identified in the annual Estimates of Canada.
9. **Classification by function:** The classification by function reflects the purpose served by the various Services of the Government. Its purpose is to afford comparability of data over a number of years and with other levels of governments without the complicating factor of periodical structural changes of departments and the differences of structures of other levels of governments. For further details, see page 37.
20. **Hiring:** The initial appointment of a person to the reporting "department" whether as a new employee in the Government Service or by transfer from another "department". Movements within a department are not considered as hirings. For purposes of hirings and separations only, the term "department" as used above is broadened to include departmental branches or services having a separately administered personnel office.
21. **Separation:** The termination of service of an employee in the reporting "department" by leaving the Government Service or by transfer to another "department". Movements within a "department" are not considered as separations. For purposes of hirings and separations only, the term "department" as used above is broadened to include departmental branches or services having a separately administered personnel office.
22. **Average employment:** As used in the table on hirings and separations represents the mean monthly average number of employees in each "department" during the quarter.
23. **Monthly average (as pertains to hirings and separations):** represents the arithmetic mean i.e. one third of the actual hirings and separations for the quarter.
24. **Monthly rate per 1,000 employees (as pertains to hirings and separations);** the rate is computed by the following formula:

$$\frac{\text{monthly average (number hired or separated)} \times 1,000}{\text{average employment (during quarter)}}$$

FEDERAL GOVERNMENT EMPLOYMENT

MAY 1964

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1964.

INTRODUCTION:

Total civilian employment of the Government of Canada, including its corporations and agencies, was 341,153 on May 31, 1964. This represented an increase of 5,601, or 1.7 p.c. over April and an increase of 2,619, or 0.8 p.c. over May 1963.

Staff earnings for the month amounted to \$137,931,000; almost unchanged from April but \$4,794,000, or 3.6 p.c. over May a year ago. These employees earned \$679,506,000 in the first five months of 1964 compared with \$659,605,000 for the same period in 1963.

May 1964

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

Beginning with this issue, statistical data on employees of the Office of the Representation Commissioner are included.

Staff strength increased to 135,686 at the end of May 1964, from 132,670 in April, while comparable figures for May of the preceding year were 135,155.

Employees in this group earned \$59,808,000 in May 1964, an increase of \$1,623,000, or 2.8 p.c. over April and \$1,810,000 or 3.1 p.c. over May 1963. Canadian National Railways, which has most of the employees in this group, accounted for nearly all of the increase.

For the second consecutive month the Northern Transportation Company reported substantial increases in both employees and earnings, due to increased spring activities.

(1) In addition approximately 230 employees are included in other provinces.

May 1964

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

In this group staff strength was 205,467 at the end of May 1964, an increase of 2,585 or 1.3 p.c. over April, and 2,088, or 1.0 p.c. over May a year ago.

They earned \$78,123,000 in May, down 1.8 p.c. from April, but 4.0 p.c. higher than May 1963.

The only group showing significantly higher earnings for May than April is "Casuals and Others", where an increase of \$288,000, or 8.4 p.c. is shown. This is due to the fact that, in the past, university students who held positions identified as "Student Assistants", "Technical Officers", etc., were counted as "Salaried" employees. However, beginning this year, these employees have been paid on an hourly rate basis and are, therefore, included under "Casuals and Others".

FEDERAL GOVERNMENT EMPLOYMENT

JUNE 1964

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1964.

INTRODUCTION:

Civilian employees of the Government of Canada, including its corporations and agencies, totalled 347,841 at the end of June 1964. This evidences a month to month growth of 2.0 p.c. or 6,688; however, staff expansion over June 1963 was only 0.9 p.c. or 3,040 employees.

Total employee earnings for June amounted to \$142,818,000, which was 3.5 p.c. or \$4,887,000 over May and 8.6 p.c. or \$11,340,000 more than June earnings of the previous year.

Cumulative earnings for the period January to June amounted to \$822,325,000, compared to \$791,082,000 a year ago.

FEDERAL GOVERNMENT EMPLOYMENT

JULY 1964

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1964.

INTRODUCTION:

Total Federal Government staff, including employees of corporations and agencies, numbered 354,269 at the end of July 1964. This was an increase of 1.8 p.c. or 6,428 over June and 1.1 p.c. or 3,793 over July 1963.

They earned a total of \$145,411,000 for the month. This represented a 1.8 p.c. or \$2,593,000 increase over June but a 5.0 p.c. or \$7,680,000 decrease from July 1963. The 5.0 p.c. decrease occurred mainly because retroactive payments were substantially lower in the current month, than during July 1963.

Aggregate earnings for the January - July period increased from \$944,174,000 in 1963 to \$967,735,000 in 1964.

The quarterly statement of hirings and separations data for salaried employees in the second quarter of 1964 is given in Table 10 of this issue.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

This departmental group staffed by 210,552 at the end of July, had a personnel increase of 1.4 p.c. or 2,937 employees over the previous month and less than one per cent, or 1,687 over July 1963.

Earnings, totalling \$80,782,000, were slightly higher than June earnings but were 10.2 p.c. or \$9,150,000 below the comparable figure for July a year ago. As noted in the Introduction, total earnings for July 1963 included the payment of retroactive salary increases.

The principal variations in staff strength at the end of July 1964, when compared to June are outlined in the following table:

Function	Administrative unit	Change and reason(1)
Social Welfare:		
Other Social Welfare ...	Citizenship and Immigration - Indian Affairs	C - seasonal increase - due to the construction and repair of schools and other buildings. Also, to a new, more accurate system of reporting casual employees.
Natural Resources and Primary Industries:		
Minerals and Mines	Mines and Technical Surveys	C - seasonal increase - due to the hiring of University graduates and students for summer survey parties.

(1) Abbreviation used: Casuals - C.

(8) Excludes earnings for the following persons:

Governor General and Lieutenant Governors ... \$ 19,222
Judges \$577,083
Ministers of the Crown \$ 30,125

This table is published four times a year, in the January, April, July and October issues of this publication.

The table shows for the three month period, by department and sex:

- (a) Average employment
- (b) Monthly average (pertaining to hirings and separations)
- (c) Monthly rate per 1,000 employees (pertaining to hirings and separations).

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees (indicated by an asterick). The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates. However aggregates for these departments are given in "Total-Departments with less than 100 employees", as well as in "Total-All Departments".

When using this table the following points should be remembered:

1. "Hiring" means the initial appointment of a person to the reporting department or an appointment from a non-Act to an Act position.
2. "Separation" means the termination of service of an employee in the reporting "department" by leaving the Government Service, by transfer to another "department", or transfer from an Act to a non-Act position. Movements within a "department" are not considered as separations.
3. "Department", for this table only, is altered to include departmental branches or services having a separately administered personnel office.

Variations in this particular quarterly summary are mainly seasonal increases due to the beginning of spring activities. The most significant ones are listed below together with the function of each group, and the reason for the change.

April 1 to June 30, 1964

Department	Function	Change and Reason
Defence Production	General Government: Executive and Administrative	Increase of personnel, particularly during April. Due to the transfer to this Department of the Procurement, Purchasing and Stores Branch, the Production Branch, and the supporting services contained in the Departmental Secretary's Branch, the Administrative Services Branch, and the Financial Services Branch of the Department of Public Printing and Stationery.
Fisheries	Natural Resources and Primary Industries: Fish and Game	April and May "hirings" up-seasonal increase due to the re-hiring of Fishery Wardens and spring activities at Fish Hatcheries.
Industry	Trade and Industrial Development	This department was shown separately for the first time in the April issue of F.G.E. To form this department personnel of the following branches were transferred from Trade and Commerce: (1) Office of the Assistant Deputy Minister (Domestic Commerce), (2) Industrial Promotion Branch, (3) Industrial Design Branch, and (4) Small Business Branch. In addition 5 employees were transferred from Defence Production.
National Defence ...	Defence Services	"Separations" high for the three months, due to the integration of the Services creating a need for fewer civilian personnel.
National Revenue: Taxation	General Government: Executive and Administrative	"Hirings" high during the four-month period February through May, with the peak reached in April. Additional staff for processing Income Tax returns.
Public Works	Transportation and Communication: Waterways	Increased April "hirings" due to the re-opening of locks, dams and waterways for the new season of navigation.
Public Printing and Stationery	General Government: Executive and Administrative	April "Separations" high due to transfer of above mentioned Branches to Department of Defence Production.

FEDERAL GOVERNMENT EMPLOYMENT

AUGUST 1964

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1964.

INTRODUCTION:

Civilian employees of the Government of Canada, including its corporations and agencies, numbered 353,592 at the end of August 1964. This is 677 below July, but 1.5 p.c. or 5,082 over August 1963.

Earnings for the month were \$143,865,000, 1 p.c. below the previous month but 4.4 p.c. or \$6,125,000 over August 1963.

Accumulated earnings for the period January - August were \$1,111,600,000 as opposed to \$1,081,914,000 for the comparable period in 1963. This was an increase of \$29,686,000. A total of \$707,791,000 was earned since April 1, 1964, as compared to \$684,561,000 during the same term in 1963.

FEDERAL GOVERNMENT EMPLOYMENT

SEPTEMBER 1964

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April, 1964.

INTRODUCTION:

There were 348,280 people employed by the Government of Canada, including its corporations and agencies, at the end of September 1964. This was a decrease of 1.5 p.c. or 5,312 from August and an increase of 1.7 p.c. from September 1963.

They received \$158.2 million during the month in gross earnings, up 10.0 p.c. or \$14.4 million from the previous month and 17.6 p.c. or \$23.6 million from the preceding September. This large gain is due to the recent salary increase granted to certain classes of employees. Gross earnings for the month include the retroactive adjustments covering the period October 1, 1963 to August 31, 1964. More detail is given in Table 3B.

Cumulative gross earnings for the period January 1 to September 30 were \$1,270 million as opposed to \$1,216 million for the same period of 1963. Gross earnings for the first six months of the 1964-65 fiscal year were \$866 million, for the first six months of 1963-64, \$819 million.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

This group of Government employees numbered 143,455 at the end of September 1964. Compared to the August staff, this represented a slight decrease, however a year-to-year, that is September 1963 - September 1964, increase of 2.8 p.c. or 3,905 employees occurred.

Gross earnings for the month totalled \$68,589 thousand. This represented a gain of 7.7 p.c. or \$4,914 thousand over August and 17.7 p.c. or \$10,313 thousand over September 1963.

The number of Proprietary Corporation employees decreased slightly in September, compared to the August figure, whereas gross earnings increased by \$4,784,000. Comparing the current month with September 1963 indicates that employees were up 2.8 p.c. and earnings 18.2 p.c. Canadian National Railways, which is by far the largest crown corporation, accounted for the greatest portion of the increase. Central Mortgage and Housing staff received retroactive salary adjustments which accounted for the next largest increase.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

Staff strength in this group was 204,825 at the end of September, a decrease of 4,535 from the previous month, but 1,787 more than September 1963. A substantial decrease in casual employment resulted from the completion of several departmental summer projects which employed numerous students. By the end of September almost all of these workers had returned to school.

For September, the total regular earnings of this group amounted to \$78,966,000. This was down slightly from the August earnings of \$78,999,000, but 5.0 p.c. or \$3,768,000 above the September 1963 figure of \$75,199,000. Earnings for casual employees showed the greatest decline, proportionately, since most of the casuals who left the Service did so about the middle of the month. Only the salaried group had higher regular earnings than for the previous month. This reflects the recent salary revisions. An estimated 63,000 employees profited by the salary increases effective October 1, 1963. Some 1,600 hospital employees were granted raises effective January 1, 1964. Salary increases retroactive to October 1, 1963 amounting to \$9,009,000, and those for the hospital employees to \$229,000. These are included in Table 3B under "Retroactive payments reported".

Total gross earnings for the current month amounted to \$89.6 million, as opposed to \$80.2 million for August and \$76.3 million for September 1963.

A comparison of principal variations in staff strength, by function, between August and September, is presented below.

Function	Administrative Unit	Change and Reason
Social Welfare:		
Old Age and Unemployment Assistance ...	National Health and Welfare	As a result of a recent reorganization of Welfare Services, the number of salaried employees increased. Several new positions were established.
Recreational and Cultural Services:		
Parks, Beaches and other Recreational Areas	Northern Affairs and National Resources	Decrease in the number of Prevailing Rate and Casual employees. Seasonal variation due to the closing of parks, beaches, etc. at the end of the season.
Natural Resources and Primary Industries:		
Minerals and Mines	Mines and Technical Surveys	Decrease of Prevailing Rate and Casual employees. Natural seasonal variation as summer projects undertaken by the Geological Research and Mining Research Branches were completed.

OCTOBER 1964

NOTE

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April 1964.

INTRODUCTION:

Civilian employees of the Government of Canada, including its corporations and agencies, totalled 342,416 at the end of October 1964. This represented a decrease of 1.7 p.c. from September, but an increase of 1.2 p.c. over October 1963.

Gross earnings of these employees amounted to \$143.6 million in October 1964, 9.3 p.c. or \$14.7 million below the previous month's total of \$158.2 million. The September total included salary revisions of \$9.8 million, retroactive to October 1, 1963. Comparable earnings for October 1963 were \$137.1 million, 4.7 p.c. or \$6.4 million below the month under review.

Aggregate earnings for the period January 1 to October 31, 1964 were \$1,413 million compared to \$1,354 million for the same period in 1963. This was an increase of \$59.7 million. Just over one billion dollars was paid to employees between April 1 and October 31, 1964. This was \$53.2 million above the earnings for the same six months of 1963.

The quarterly statement of hirings and separations data covering salaried employees in the third quarter of 1964 is given in Table 10 of this issue with textual commentary on page 26.

OCTOBER 1964

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

Staff strength in this group was 138,281 at the end of October. This was down 3.6 p.c. from September 30, but up 1.7 p.c. from the end of October 1963.

Gross earnings for the month amounted to \$62.9 million. This was 8.3 p.c. or \$5.7 million lower than the September total but 5.4 p.c. or \$3.2 million above October 1963. The September to October decrease reflected reduced Canadian National Railways payroll. On the other hand twenty-seven of the organizations comprising Part A, reported increases in their October 1964 versus October 1963 payrolls.

OCTOBER 1964

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

Employees in this departmental group totalled 204,135 at the end of October, slightly less than for the previous month, but 1,796 more than in October 1963.

Regular earnings, at \$79.1 million, were slightly higher than for September, and 3.8 p.c. above the October 1963 earnings of \$76.2 million. Total employee earnings on the other hand were 10.0 p.c. or \$9.0 million below those for September. This difference reflects the inclusion in the September publication of retroactive payments made to salaried employees as mentioned in the introductory text.

The principal month-to-month variations in staff strength, by function, are shown below.

Function	Administrative Unit	Change and reason
Transportation and Communications:		
Highways, Roads and Bridges Public Works		Ships' crews - Seasonal decrease - end of navigation season. Casuals - seasonal decrease - reduction in road work projects.
Health and Social Welfare:		
Other Social Welfare Citizenship and Immigration		Casuals - Indian Affairs Branch - decrease in housing construction for Indian families - poor weather conditions.

Third quarter 1964

Notes and Definitions:

This table is published four times a year, in the January, April, July and October issues of this publication.

The table shows for the three month period, by department and sex:

- (a) Average employment
- (b) Monthly average (pertaining to hirings and separations)
- (c) Monthly rate per 1,000 employees (pertaining to hirings and separations)

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees (indicated by --). The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates. However, aggregates for these departments are given in "Total-Departments with less than 100 employees", as well as in "Total-All Departments".

When using this table the following points should be remembered:

- 1. "Hiring" means the appointment of a person to an Act position. Movements within a department are not considered as hirings.
- 2. "Separation" means the termination of service of an employee in the reporting "department" by leaving the Government Service or by transferring to another "department". Movements within a "department" are not considered as separations.
- 3. "Department", for this table only, is altered to include departmental branches or services having a separately administered personnel office.

Comments:

Most of the variations indicated in this summary recur annually. Some projects were started in the second quarter (spring season) and completed in the third quarter (July to September). Comments appear below on the most notable changes.

The Social Welfare Division of the Department of Citizenship and Immigration had considerable increase in both hirings and separations over the April-June period. The Indian Affairs Branch of this division enters into contracts with teachers. These contracts commence September 1 and expire August 31, thus causing simultaneous hirings and separations. The Education Division of Northern Administration in the Department of Northern Affairs and National Resources recorded similar variations in teaching staff.

Although integration of the armed forces in the Department of National Defence is causing a decrease in civilian personnel, other variations occur with seasonal staff. During the summer the department commences to hire fireman-labourers and heating plant staff for the coming winter months. This contributed to the rise in hirings from the second to the third quarter.

The Field and Air Surveys, Mapping and Aeronautical Charting Branch of Mines and Technical Surveys witnessed above average hirings because of two events:

- 1. The Air Photo Production Unit was transferred from National Defence. Although the transfer was official April 1, 1964, it did not take place before July.
- 2. The Map Compilation and Reproduction Unit was expanded.

FEDERAL GOVERNMENT EMPLOYMENT

NOVEMBER 1964

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April, 1964.

INTRODUCTION:

Canada's federal government had 340,882 employees in all services (excluding the Armed Forces) at the end of November 1964. This total was 1,534 fewer than in October 1964 with three of the five main groups (excepting departmental corporations and other agencies) recording a decrease. The November 1964 total was up 1.3 p.c. or 4,209 from the 336,673 employed in the same month a year ago.

Total staff earnings for November 1964 amounted to \$142.6 million, down 0.7 p.c. from October 1964, but up by 6.9 p.c. or \$9.2 million from November 1963.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

Employment in this group numbered 136,336 at the end of November 1964, a decline of 1.4 p.c. or 1,945 from the previous month but a rise of 1.3 p.c. or 1,728 from November 1963.

The Canadian National Railways reported some 1,400 fewer employees. The railway reduced staff in all provinces but Saskatchewan. Payroll decreased by \$1.8 million from the previous month but was up \$1.8 million from November 1963.

During October and November 1964 there was the usual substantial decrease in staff of the Northern Transportation Company. This is due to completion of their summer program.

November 1964

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

Employees in this group totalled 204,546 at the end of November 1964. This represents a slight increase of 411 from October 1964 and was up 1.2 p.c. or 2,481 from November 1963. Total employee earnings for the month under review amounted to \$80.0 million, down 0.8 p.c. from October 1964, but 4.5 p.c. or \$3.5 million higher than November 1963.

Analysis of the November data by function indicates an increase in the function "Health and Social Welfare - Other Social Welfare" which is the beginning of a winter works program by Citizenship and Immigration, Indian Affairs Branch. The function "Public Service and Trading Enterprises" increased due to engaging of additional help to handle a particularly heavy shipment of grain.

FEDERAL GOVERNMENT EMPLOYMENT

DECEMBER 1964

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April, 1964.

INTRODUCTION:

The departments, corporations and agencies of the Government of Canada had 339,095 employees at the end of December 1964. This was 0.5 p.c. lower than November, due mainly to a decrease of 1,717 in departmental branches and services. The December 1964 total was up 5,067 or 1.5 p.c. from the 334,028 employed in December 1963.

Total staff earnings for the month amounted to \$144.9 million; up \$2.3 million or 1.6 p.c. from November 1964 and \$7.2 million or 5.2 p.c. from December 1963.

Earnings for the year 1964 amounted to \$1.7 billion, an increase of 4.7 p.c. over 1963.

DECEMBER 1964

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Employees totalled 203,295 at the end of December 1964. This was a decline of 1,251 or 0.6 p.c. from November, but an increase of 1,287 or 0.6 p.c. from December 1963. Total employee earnings for December were \$81.1 million, an increase of \$1.1 million or 1.4 p.c. over November and up \$3.6 million or 4.6 p.c. from December 1964.

The reduction in staff from November reflected a decrease in seasonal activities, involving casual, ships' officers and crews and prevailing rate employees. However, in contrast to this, there was a substantial gain in casual employment in the function "Health and Social Welfare - Other Social Welfare". This increase took place in the Department of Citizenship and Immigration as the result of a community development project instituted for the benefit of Indians.

FEDERAL GOVERNMENT EMPLOYMENT

JANUARY 1965

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April, 1964.

INTRODUCTION:

Total Federal Government staff, including those of corporations and agencies, numbered 336,800 at the end of January 1965. Total payrolls for these employees amounted to \$141.7 million. This represented a slight decrease in both employees and payrolls from December 1964, but was 1.2 p.c. (4,033 employees) and 5.0 p.c. (\$6.7 million) above the previous January.

Aggregate payrolls for the period April 1, 1964 to January 31, 1965 were \$1.44 billion, compared to \$1.36 billion for the first ten months of the 1964-65 fiscal year.

A statement of hirings and separations for the fourth quarter 1964, is given in Table 10 of this issue.

28-4-65.

January 1965

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

The Agency and Proprietary Corporations and Other Agencies had a staff strength of 133,842 at the end of January 1965, a 1.4 p.c. decrease from the previous month, but 2.2 p.c. above January 1964.

Employees earned \$61.7 million, 3.3 p.c., or \$2.1 million, below December earnings, but 7.9 p.c., or \$4.5 million, higher than in January 1964.

The Canadian National Railway accounted for most of the change in both personnel and payrolls.

January 1965

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

These organizations employed 202,958 persons at the end of January, down very slightly from December but 0.6 p.c. more than in January 1964. In the January 1964 to January 1965 comparison salaried employment rose 0.3 p.c., prevailing rate staff declined 3.9 p.c., ships employees numbered 7.2 p.c. more and casuals were 10.4 p.c. higher. Most of this increase in casuals occurred in the Department of National Revenue (Taxation Division), where seasonal employees were transferred from salaried to casual positions.

The earnings of employees at \$80.0 million were down 1.3 p.c. or \$1.1 million from December but rose 2.8 p.c. or \$2.2 million from January 1964. Part of the decline from the December payroll is attributable to reduced overtime payments which totalled \$2.0 million in December but only \$1.5 million in January. The remainder of the decline was due to reduced prevailing rate, ships' employees and casual payrolls which more than offset a small rise in the regular payroll of salaried employees (this group had received retroactive payments of \$166,000 in December but less than \$500 was reported in January).

Cumulative payrolls of \$809.4 million for the period April 1, 1964 to January 31, 1965 were 4.2 p.c. or \$32.8 million above aggregate employee earnings in the same ten months of 1963-64. This gain was mainly the result of salary revisions to some 65,000 employees announced during the 1964-65 fiscal year.

Fourth quarter 1964

Notes and Definitions:

This table is published four times a year, in the January, April, July and October issues of this publication.

The table shows for the three month period, by department and sex:

- (a) Average employment
- (b) Monthly average (pertaining to hirings and separations)
- (c) Monthly rate per 1,000 employees (pertaining to hirings and separations)

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees (indicated by *). The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates. However, aggregates for these departments are given in "Total-Departments with less than 100 employees", as well as in "Total-All Departments".

The following definitions apply to this table:

1. "Hiring" means the appointment of a person to a salaried position (as defined in the April, 1964, publication). Movements within a department are not considered as hirings.
2. "Separation" means the termination of service of an employee in the reporting "department" by leaving the Government Service or by transferring to another "department". Movements within a "department" are not considered as separations.
3. "Department", for this table only, is altered to include departmental branches or services having a separately administered personnel office.

Comments:

Generally speaking, variations in Hirings and Separations are of a seasonal nature, recurring in much the same pattern from year to year.

Claimants for Unemployment Insurance Benefit must qualify for either regular benefit or seasonal benefit (including fishing seasonal). The maximum length of the benefit period is 52 weeks, in the case of claimants qualifying under the regular terms of the Act. Seasonal benefit periods may be established only from December 1 to mid-May, with a maximum length of 24 weeks (for detail on the operation of the Unemployment Insurance Act, see the D.B.S. publication Catalogue No. 73-001). To handle the increased number of claims filed during the seasonal benefit period, the Unemployment Insurance Commission requires additional personnel. As a rule this means increased hirings during the fourth quarter. However, last summer the Commission needed staff to assist in registering individuals who had applied for social insurance numbers. As a result, those hired for the 1963-64 seasonal benefit period were retained through the summer on the social insurance registration program and, subsequently, were held on strength for the following seasonal benefit program (1964-65). This had the effect of confining the usual seasonal variations in hirings and separations and eliminated the need for a large addition to staff in the fourth quarter of 1964.

The rate of Post Office hirings increased during the fourth quarter because employees of seventeen post offices were added to the records of salaried employees. These employees had formerly been paid out of Postal Revenue. See footnote 6 on page 19 for reference to other employees of this type.

Also during the fourth quarter there was a considerable seasonal decrease in the salaried staff of the Fisheries Department.

FEDERAL GOVERNMENT EMPLOYMENT

FEBRUARY 1965

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April, 1964.

INTRODUCTION:

Only minor changes occurred during February in employment and payrolls of the Federal Government. There was a slight drop (less than 0.1%) in the number of federal employees and a small decrease (1.7%) in their earnings. The February 1964 to February 1965 comparison indicates increases in both numbers (1.2%) and earnings (5.4%). Cumulative earnings for the first two months of 1965 rose 5.2% over the same two months of 1964 and the April to February aggregate earnings increased 5.6% from the 1964 to the 1965 period.

February 1965

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

Employment of these activities was virtually unchanged with small increases in some provinces being offset by decreases in others; however, there was a 4.0% decline in total employee earnings compared to the previous month, January 1965. This occurred mainly because there were fewer working days in February than January. There were gains over February 1964 in both numbers (2.4%) and earnings (7.6%). Cumulative totals also showed gains; 7.8% in the two month calendar period and 7.5% in the eleven month fiscal period.

(1) In addition, approximately 220 employees are included in other provinces.

February 1965

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

There was a 1.1% fall in the number of departmental employees; casuals being the only group that increased (1.7%) from January 1965.

Total earnings were virtually unchanged from January; prevailing rate staff being the only group to receive less earnings (6.7%). A large portion of the increase in overtime payments to salaried employees represents pay to Post Office employees for Christmas overtime.

Other comparisons of present and past statistics did not reveal any significant changes.

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April, 1964.

INTRODUCTION:

Although the number of Federal Government civilian employees rose only 0.2% (568) from February 1965, the total employee earnings were 3.2% (\$4.4 million) higher. Staff of proprietary corporations received 2.3% (\$3.3 million) more pay, (see page 6).

The organizations forming Part A accounted for less than half (39.7% at March 31, 1965) of the total staff covered in this publication but received almost two-thirds of the staff increase since March 1964. Staff of the Part B organizations (61.3% of the total staff) received about one-third of the increase. They also accounted for two-thirds of the 5.2% rise in payrolls over March 1964 whereas the Departmental staffs received about one-third of the increased pay.

Cumulative earnings for the first three months of 1965 rose 5.2% over the same three months of 1964 and the 1964-65 fiscal year payrolls increased 5.6% from those of 1963-64.

March 1965

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

Employment in these organizations was virtually stationary during March, as was the case in February. However, the payrolls jumped 6.2%; the Canadian National Railways with a payroll increase of \$2.7 million was, as usual, the major influencing factor. This occurred mainly because there were more working days in March than in February.

There were increases in both numbers (2.2%) and earnings (8.7%, mainly CNR) over March 1964. Fiscal year payrolls increased 7.6% (\$52.9 million) from 1963-64 to 1964-65.

March 1965

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

The total number of these employees was virtually unchanged from February 1965 (+0.4%) and March 1964 (+0.8%); casuals showed the only increase in March 1965 (1,020 or 7.4%). Regular earnings were up 2.4% from February and 6.1% from March 1964. Monies earned in March 1965 included \$236,000 paid as regular earnings to ships' employees in lieu of holidays as compensatory leave credits.

Departmental staffs increased by 5.1% during March 1965; whereas, departmental corporations had a staff decrease of 1.7%. Both of these changes resulted from variations in casuals; departments had decreases and departmental corporations no change in salaried, prevailing rate and ships' employees.

Cumulative earnings for the 1964-65 fiscal year were \$970.2 million, an increase of \$37.8 million, or 4.1% from the 1963-64 figure of \$932.4 million.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

Little change occurred during April in either the number of employees or payrolls of this group. Personnel increased by 403 to 134,100 while total payrolls decreased by \$219,000 to \$62.7 million. The Canadian National Railways payrolls decrease of \$1.1 million (2.7 p.c.) was largely offset by increased payrolls for Atomic Energy of Canada, St. Lawrence Seaway Authority and Air Canada.

There was an increase over April 1964 of 1,430 employees (0.3 p.c.) and \$4.5 million (7.8 p.c.) in payrolls.

Payrolls for the period January 1 to April 30 aggregated \$247 million, compared to \$228 million for the same period in 1964.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

Employees in this group numbered 203,185 at the end of April 1965, a decrease of 334 (0.2 p.c.) from March. Total payroll for April was \$2.2 million (2.7 p.c.) greater than in March. A large decrease in casual employees due to lay-offs on completion of government sponsored winter works programs was largely offset by increases in other employee groups. Over half of the increase in payroll from March resulted from a twelve month retroactive pay increase to approximately 2,700 salaried employees of the Penitentiary Service.

Cumulative payrolls for January 1 to April 30, 1965 were \$323.8 million compared with \$313.0 million in the first four months of 1964.

(3) Included with overtime payments to Prevailing Rate employees.

First quarter 1965.

Notes and Definitions:

This table is published four times a year, in the January, April, July and October issues of this publication.

The table shows for the three month period, by department and sex:

- (a) Average employment
- (b) Monthly average (pertaining to hirings and separations)
- (c) Monthly rate per 1,000 employees (pertaining to hirings and separations)

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees (indicated by *). The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates. However, aggregates for these departments are given in "Total-Departments with less than 100 employees", as well as in "Total-All Departments".

The following definitions apply to this table:

1. "Hiring" means the appointment of a person to a salaried position (as defined in this issue on page 45). Movements within a department are not considered as hirings.
2. "Separation" means the termination of service of an employee in the reporting "department" by leaving the Government Service or by transferring to another "department". Movements within a "department" are not considered as separations.
3. "Department", for this table only, is altered to include departmental branches or services having a separately administered personnel office.

Comments:

Practically all variations in Hirings and Separations during the first quarter of 1965 were seasonal in nature. Some departments filled a number of vacant positions.

The Civil Service Commission recorded increased hirings due to the formation of the "Bureau of Classification Revision".

April 1965

PART C - EXPLANATORY NOTESSECTION 1 - INTRODUCTIONHistory

These statistics are derived through a monthly survey of Government of Canada employment and have been published since April 1952. The monthly report has had three different titles. From April 1952 to August 1953 it was known as "Government of Canada Employment and Payrolls". In the period September 1953 to March 1954 the title was "Federal Government Employment and Payrolls" and since April 1954 the name has been "Federal Government Employment". The monthly series replaces one formerly issued annually under several different titles, the first of which was "Statistics of the Civil Service of Canada". This report was issued annually for the fiscal years ended March 31, 1925 to 1931. Combined reports with the above title were issued for the fiscal years ended 1932 to 1934; 1935 and 1936; and 1937 to 1939. The title was changed to "Summary Statistics of the Civil Service of Canada" and such reports were issued in a combined form for the fiscal years ended 1940 to 1942 and for each of the fiscal years ended 1943 to 1948. The title became "Summary Statistics, Federal Civil Service Employment and Payrolls" for the year ended March 31, 1949. For the years ended March 31, 1950, 1951 and 1952 three reports were issued entitled "Federal Civil Service Employment and Payrolls".

Method of Presenting the Statistics

This monthly report is composed of three parts. INTRODUCTION summarizes (in Table 1) data on all persons employed by the Federal Government and its agencies. PART A presents (in Table 2) employment data of agency and proprietary corporations and other agencies by province. A list of these appears on page 35. PART B consists of Tables 3 to 11 which present statistics relating to the departmental branches, services and corporations listed in the Financial Administration Act plus a few which are not listed therein. Data on these are detailed in the table of contents on page 3. A table on numbers and rates of hirings and separations for salaried employees is included quarterly.

Comparability with Former Survey

The statistical series produced on an annual basis for the years 1925 to 1952 was intended to include the number of permanent and temporary employees in the general administrative government services (this broadly speaking, included those coming under the Civil Service Act). In addition, the earnings of certain classes of employees referred to as "non-enumerated" classes were shown in the publication. The survey did not include a count of these "non-enumerated" classes. Since there was a distinct variation in the interpretation by departments of what constituted these groups, there were substantial differences between departments in the types of employees and earnings included in the annual series.

The present series which commenced in April 1952 includes employees not formerly counted in the publications as well as a number of government services not previously included, and consequently the statistics should not be compared with the former annual series.

Extent of Coverage

Includes: Departments (including deputy ministers) and departmental crown corporations
Proprietary and Agency Crown Corporations and other agencies
Members of Boards, Commissions and other government organizations, who serve on a full time basis with salaries fixed accordingly.
Royal Canadian Mounted Police

Excludes: Governor General and Lieutenant-Governors
Members of Parliament and Senators
Ministers of the Crown
Mines and Technical Surveys: field parties
Post Office: employees paid from Postal Revenues
Justice: Solicitor General and judges
National Defence: members of the Armed Forces

Extent of Coverage - Concluded

Excludes: Canada Council

International organizations, the expenses of which are shared by Canada

Employees of firms under contract to the Government of Canada

Officers of Boards, Commissions and other government organizations who are paid on a per diem basis or receive a nominal honorarium for their services.

Comparability between Numbers and Earnings

The user of these statistics is advised to avoid making direct comparisons between the numbers of employees reported and the earnings reported, the reason for this being that numbers relate to the last day of the month wherever possible and otherwise to the final pay period of the month. Since in certain categories, especially casual employment, considerable fluctuations in numbers employed frequently occur during a month, it will be seen that a comparison between the earnings of all persons employed during the month and the number on strength at the end of the month would, in many cases, not be valid.

Uses of these Statistics

Users of the statistics fall into four main categories. These are:

1. Those who wish to use summary data and identify government as an employer. In this category are included those persons who wish to relate the significance of government as an employer to business in general.
2. Persons interested in an analysis of the administrative structure of the Federal Government. These, in the main, include government departments themselves. The administrative analyses of data as presented in tables 8 and 9 of the publication permit a comparison between the number of staff employed as reported in the publication and the number of positions established for each administrative branch of the government as published in the annual Estimates of Canada. This is, of course, mainly an administrative use which is of value to the Treasury Board and to the Civil Service Commission as well as the various government departments. A further administrative use of the data is to determine the significance of the labour input factor through an analysis of wage costs as a proportion of total expenditures by vote or other administrative unit.
3. Persons wishing to make a comparison between the Federal Government and other levels of government or between the Federal Government now and in past years do so through the use of the function analysis which is described further commencing on page 37.
4. The final group of users are those who are interested in government as an employer in each of the principal industries. For this purpose the data must be analysed on a Standard Industrial Classification basis. This analysis, to date, has not been undertaken but it is intended that it should be in the near future. The application of this analysis to the Federal Government and following afterwards to the provincial and municipal governments will permit the assessment of the degree to which governments and their corporations have become significant employers in each industry.

The users besides government themselves include persons and firms undertaking labour research on behalf of industry, provincial and municipal governments, university research officers, business firms and private citizens. In addition, a substantial number of enquiries originate in the House of Commons and the press.

A description of the sources of data and the means by which the information is submitted and prepared for use is contained in the following outline.

SECTION 2 - DESCRIPTION OF THE TABLESINTRODUCTION - TOTAL FEDERAL GOVERNMENT EMPLOYMENT AND PAYROLLS (TABLE 1)

Table 1 assembles employees belonging within the following categories:

- (A) Agency and proprietary corporations and other agencies:
- (1) agency corporations
 - (2) proprietary corporations
 - (3) other agencies

Table 1 assembles employees belonging within the following categories - Concluded

(B) Departmental branches, services and corporations:

- (1) departmental branches and services
- (2) departmental corporations

The first three record as gross earnings all monies earned by the employees covered while the later two combine overtime earnings and retroactive payments reported with regular earnings to obtain gross earnings.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES (TABLE 2)

Statistics for these organizations are collected in two ways: (1) directly from the corporation or agency; (2) through the Employment Section of the Dominion Bureau of Statistics. The statistics reported do not permit a presentation by class, i.e. salaried, casuals and others, etc., hence composite figures are published. In most cases, employees reported represent the staff strength during the final pay period of the month. Gross earnings are reported and they accordingly include overtime and other types of special payments in addition to regular salaries and wages. Organizations included in Table 2 are listed by group as follows:

Agency Corporations

Atomic Energy of Canada Ltd.
Canadian Arsenals Ltd.
Canadian Commercial Corp.
Canadian Patents and Development Ltd.(1)
Crown Assets Disposal Corp.
Defence Construction (1951) Ltd.

National Battlefields Commission
National Capital Commission
Centennial Commission(2)
National Harbours Board
Northern Canada Power Commission

Proprietary Corporations

Canadian Broadcasting Corporation
Canadian National Railways
Canadian Overseas Telecommunication Corp.
Central Mortgage and Housing Corp.
Eldorado Aviation Ltd.
Eldorado Mining and Refining Ltd.
Export Credits Insurance Corp.

Farm Credit Corporation
Northern Transportation Company Ltd.
Polymer Corporation Ltd.
St. Lawrence Seaway Authority
The Seaway International Bridge Corp. Ltd.
Air Canada

Other Agencies

Atlantic Development Board
Bank of Canada
Canadian Wheat Board
Industrial Development Bank

Canadian Corporation for the 1967 World Exhibition
Northern Ontario Pipe Line Crown Corp.(3)
Office of the Custodian

- (1) This body is staffed by employees of the National Research Council.
- (2) Excludes the National Conference on Canada's Centennial, which is not an agent of Her Majesty nor part of the Public Service, but draws on the staff of the National Centennial Administration.
- (3) This body is staffed by employees of Defence Research Board and Defence Construction (1951) Ltd.

The agency and proprietary corporations are listed in the Financial Administration Act under Schedules C and D respectively. The Glossary on page 44 of this report contains definitions of these two types of corporations. The "Other Agencies" though not listed or defined in the Financial Administration Act are nevertheless organizations of the Crown.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS (TABLES 3 TO 11)Salaried Employees

Salaried employees used in this report mean all persons paid on the basis of a stated annual salary rate, with the exception of the group known as "ships' officers". The latter group are excluded because of their special treatment under the Financial Administration Act. For a more complete definition of "salaried employees" see the Glossary.

The basic data is recorded in two ways:

(1) By employee:

Individual position records are maintained for the majority of salaried positions in the departmental branches, services and corporations of the Government of Canada (the remainder will be treated in the next paragraph). The position record cards contain data on the occupants of these positions. The records are amended monthly on the basis of documents received authorizing changes concerning positions and/or their occupants - thus affording a count of persons employed on the last day of the month. Because of an unavoidable time lag in the routing of position and personnel changes through normal channels, it is not always possible to include all changes in the appropriate month. The count of employees for a given month, therefore, will not always represent the exact staff strength at the end of that month. Regular earnings, being based on the annual salary rates of employees on strength at the month's end, will not necessarily equal the actual amounts paid in salaries during the month. These factors are not, however, sufficiently significant to seriously affect the validity of the statistics.

(2) By group of employees:

No individual position records are maintained for the remainder of salaried employees in departmental branches, services and corporations. Statistics on these employees are collected by means of forms or statements giving: the staff strength at the end of the month, regular earnings earned during the month, including earnings of those off-strength at the end of the month, retroactive payments and overtime payments. The following report in this manner:

Atomic Energy Control Board
Defence Research and Development
Fisheries Research Board of Canada
Municipal Development and Loan Board
National Film Board
National Research Council including the Medical Research Council
Office of the Representation Commissioner
Post Office (part-time employees; employees paid from Postal Revenues)
Royal Canadian Mounted Police (Force)
Royal Commissions

All salaried "locally-engaged" employees in foreign countries are also reported on forms. See the Glossary for definition.

Non-salaried Employees

Statistics on non-salaried employees (prevailing rate, casuals and others) including ships' officers and crews in departmental branches, services and corporations are collected, in all cases, by means of forms or statements. These summary reports based on payroll and other records indicate the staff strength, regular earnings, retroactive payments and overtime payments. Casual "locally-engaged" employees are also reported by this means. The ships' officers, which are in fact salaried employees, are included in the non-salaried group owing to their special treatment under the Financial Administration Act.

Departmental Corporations

The Departmental Crown Corporations fall under Schedule B of the Financial Administration Act, see the Glossary for definitions. The following lists the Departmental Corporations included in the tables on Departmental Branches, Services and Corporations:

Agricultural Stabilization Board
Atomic Energy Control Board
Canadian Maritime Commission
Director of Soldier Settlement
The Director, The Veterans' Land Act
Dominion Coal Board
Fisheries Prices Support Board
Municipal Development and Loan Board
National Gallery of Canada
National Research Council
Unemployment Insurance Commission

Hirings and Separations of Salaried Employees

Data on hirings and separations of salaried employees was first published in the Federal Government Employment report for December 1959 and covered the quarter October 1 to December 31, 1959. This table, included in the monthly report once each quarter, records hiring and separation averages and rates by department. "Department", as defined for use in hiring and separation statistics only, means a department, a departmental branch or departmental service which has a separately administered personnel office. For this reason, organizations such as the Dominion Bureau of Statistics which are included under a departmental heading (Trade and Commerce) in the main tables are accorded separate departmental status in the table on staff turnover.

Each "department" is considered for purposes of turnover statistics as a separate employing agency. Consequently, movements of personnel between "departments" are treated in the same way as movements into and out of the government service. The aggregate hirings and separations are summed up in "Total - all Departments". It should be noted, therefore, that hiring and separation data for the entire Government of Canada as an employer cannot be secured from this table. The difference between this and the "Total - all Departments" would equal the number of inter-departmental movements which are, in fact, relatively few.

It should also be noted that the totals shown in this table differ from hiring and separation data published by the Civil Service Commission of Canada. The latter organization treats all staff employed under the authority of the Civil Service Act as a complete unit and consequently is concerned only with movements into and out of "Act" employment. The Commission therefore is not concerned with inter-departmental movements of employees but on the other hand is concerned with movements of staff to and from "Act" employment even when such movements occur within a department.

The glossary of terms on page 45 should be referred to for definitions of certain terms used in the table on hirings and separations. These terms are:

1. Average employment
2. Monthly average (as pertains to hirings and separations)
3. Monthly rate per 1,000 employees (as pertains to hirings and separations).

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees. The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates.

CLASSIFICATION BY FUNCTION

The statistics of departmental branches, services and corporations are classified in tables 6 and 7 by function. The purpose of providing a classification by function is to supply a means of studying the operations of governments without the complications resulting from differences in administrative establishments which occur from time to time in each government and between governments.

This analysis is useful in three ways. First it permits a detailed study of employment by the Government of Canada according to the main purposes or functions. Since these functions are not subject to the periodic changes which alter the administrative structure of the government, it is possible to develop a statistical series which, with minor exceptions, is consistent over an extended period of time. Second, since differences in administrative establishments are eliminated, it is possible to make meaningful comparisons between federal government expenditures on employment and similar expenditures by other levels of government. Third, an analysis of the relationship between expenditures on employment and total expenditures can be made with regard to each function. The use of percentages will facilitate comparisons especially between levels of governments.

The classification by function reflects the purpose served by the expenditure, and employment statistics presented on this basis have been classified in accordance with concepts evolved by the Government Finance Section of the Dominion Bureau of Statistics for the presentation of financial statistics. The following listing shows how the administrative detail has been applied to the various functions and will serve to indicate clearly the meaning of each function.

GLOSSARY OF PRINCIPAL TERMS USED

1. Department: Also known as departmental services, departments are the named divisions of the Government of Canada as defined in the Financial Administration Act.
2. "Department": As used in the quarterly table on hirings and separations, the usual term department is broadened to include departmental branches or services having a separately administered personnel office. The reason for this is because movements to and from these "departments" constitute hirings and separations.
3. Crown corporation: A corporation which is ultimately accountable, through a Minister to Parliament for the conduct of its affairs, and includes the corporations named in the Financial Administration Act in Schedule B as departmental corporations, in Schedule C as agency corporations and in Schedule D as proprietary corporations.
4. Departmental corporation: A crown corporation which is a servant or agent of Her Majesty in right of Canada and is responsible for administrative, supervisory, or regulatory services of a governmental nature.
5. Agency corporation: A Crown corporation which is an agent of Her Majesty in right of Canada and is responsible for the management of trading or service operations on a quasi-commercial basis, or for the management of procurement, construction or disposal activities on behalf of Her Majesty in right of Canada.
6. Proprietary corporation: A Crown corporation which (1) is responsible for the management of lending or financial operations, or for the management of commercial and industrial operations involving the production of, or dealing in, goods and the supplying of services to the public, and (2) is ordinarily required to conduct its operations without appropriations from the Federal Treasury.
7. Other agencies: These are organizations which are not listed in the Financial Administration Act as departments or departmental agency or proprietary Crown corporations but are, nevertheless, organizations of the Federal Government. Because of the nature of these agencies, they have been classed with agency and proprietary Crown corporations.
8. Salaried employee: An employee who is paid on the basis of an annual salary rate and occupies a salaried position authorized by the Treasury Board or the Privy Council. These employees and positions may be of a continuing, term, seasonal, sessional, or part time nature. The positions are specified together with appropriate funds, in the Estimates of Canada and supplementary authorizing documents and are located in departmental branches, services and corporations subject to the regulation of the Treasury Board. Ships' officers are not classified as salaried owing to their special treatment under the Financial Administration Act.
9. Prevailing rate employee: A person employed in the Public Service of Canada whose remuneration is based on the rate of pay prevailing in the area where he is employed for the class of work he does. His rate of pay may also be based on rates prevailing in any area in Canada for work comparable to that which he does. The rates may be hourly, daily, weekly or monthly. These employees are governed by the Financial Administration Act - Prevailing Rate Employees General Regulations. They are occupants of positions authorized by the Treasury Board. The positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
10. Ships' officer: A person employed in the Public Service for duty on a ship that is the property of, or chartered by, or on behalf of, Her Majesty as a master, mate or marine engineer who is duly certified under the Canadian Shipping Act or in a position designated by the Treasury Board as that of a ship's officer. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. An annual rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act - Ships' Officer's Regulations. They are occupants of positions established by the Treasury Board, which positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
11. Ships' crew employee: A person employed in the Public Service for duty on a ship that is the property of, or chartered by, or on behalf of, Her Majesty as an unlicensed crew member. Excluded are members of the Armed Forces and Royal Canadian Mounted Police. These employees are paid on the basis of a monthly salary rate determined by the Treasury Board after consultation with the Department of Labour. They are governed by the Financial Administration Act - Ships' Crews Regulations. These employees are occupants of positions established by the Treasury Board, which positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.

12. Casual and other employees: All employees in Departments and Departmental corporations of the Government of Canada who are not defined as Salaried, Prevailing Rate, Ships' Officer or Ships' Crew employees.
13. Locally-Engaged employees: These are residents of foreign countries, employed by the Government of Canada to perform duties in the country in which they live. Their salary or wage is stated in the currency of the country where they are employed. Salaried locally-engaged employees occupy positions: (1) as Assistants; (2) in classes having the suffix U.K. i.e., Clerk 2(UK), Stenographer 1(UK), etc. While most are salaried, some are employed on a casual basis. The term "locally-engaged" excludes Canadian employees posted abroad.
14. Regular payroll - The basic wage and salary payments to employees during a specified period of time, excluding types mentioned below, but before deductions for income tax, etc. Includes payroll for all those employed during the month whether they were on strength at the end of the month or not. If there were semi-monthly, fortnightly or weekly payments in a month, the total amount paid for the month constitutes the "Regular payroll".
15. Payrolls: For agency and proprietary corporations and other agencies this term means gross payrolls, including overtime, retroactive pay and other special payments in addition to regular payrolls. For departmental branches, services and corporations, payrolls are limited to regular payrolls plus overtime and retroactive pay.
16. Retroactive payments: Payments covering salary adjustments in regular earnings applicable to prior months resulting from salary increases. Data are included in the month during which the payments are made even though the adjustments may cover several months.
17. Overtime payments: Payments for work done beyond the normal working hours. Data are included in the month during which the payments are made even though the payments may cover overtime worked during previous months.
18. Administrative classification: This is an analysis of the departments and departmental corporations to provide statistical detail on their principal units i.e. branches, boards, commissions, etc. These principal units cover most of those identified in the annual Estimates of Canada.
19. Classification by function: The classification by function reflects the purpose served by the various Services of the Government. Its purpose is to afford comparability of data over a number of years and with other levels of governments without the complicating factor of periodical structural changes of departments and the differences of structures of other levels of governments. For further details, see page 37.
20. Hiring: The initial appointment of a person to the reporting "department" whether as a new employee in the Government Service or by transfer from another "department". Movements within a department are not considered as hirings. For purposes of hirings and separations only, the term "department" as used above is broadened to include departmental branches or services having a separately administered personnel office.
21. Separation: The termination of service of an employee in the reporting "department" by leaving the Government Service or by transfer to another "department". Movements within a "department" are not considered as separations. For purposes of hirings and separations only, the term "department" as used above is broadened to include departmental branches or services having a separately administered personnel office.
22. Average employment: As used in the table on hirings and separations represents the mean monthly average number of employees in each "department" during the quarter.
23. Monthly average (as pertains to hirings and separations): represents the arithmetic mean i.e. one third of the actual hirings and separations for the quarter.
24. Monthly rate per 1,000 employees (as pertains to hirings and separations); the rate is computed by the following formula:

$$\frac{\text{monthly average (number hired or separated)} \times 1,000}{\text{average employment (during quarter)}}$$

FEDERAL GOVERNMENT EMPLOYMENT

MAY 1965

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April, 1965.

INTRODUCTION:

Total Federal Government employees, including those of corporations and agencies, numbered 345,152 on the last working day of May 1965. This represented increases of 7,867 (2.3 p.c.) over April and 4,799 (1.4 p.c.) since May 1964.

Gross payrolls amounted to \$148.9 million: \$3.2 million (2.2 p.c.) above April and nearly \$11.1 (8.0 p.c.) higher than for the previous May.

Cumulative payrolls for the calendar year were \$719.4 million compared to \$679.3 million for the same five-month period of 1964. Totals for the first two months of the 1965-66 fiscal year are \$294.6 million, compared to \$275.5 million for April and May, 1964.

Part A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

In this group staff strength was 138,692 at the end of May. This was 4,592 (3.4 p.c.) more than the previous month, and 3,006 (2.2 p.c.) higher than May 1964.

Total payrolls for the month were \$66.8 million, an increase of \$4.0 million over April and \$6.9 million since May a year ago.

Most of these increases were seasonal in nature. All transportation facilities and services showed notable increases in personnel and/or payrolls. The few minor decreases were more than offset by the Canadian National Railway's increase of 3.5 p.c. in staff and payroll.

May 1965

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

Employees in this group totalled 206,460 at the end of May, an increase of 3,275 (1.6 p.c.) over April and 1,793 (0.9 p.c.) over the previous year. The beginning of spring activities and the hiring of students as casual help, accounted for three-quarters of the increase.

Gross payrolls for the month amounted to \$82.1 million compared to \$83.0 million for April, (down 1.0 p.c.) and \$78.0 million (up 5.4 p.c.) for May 1964. The April 1965 totals were higher than normal due to the inclusion of retroactive payments to salaried employees of the Penitentiary Service.

Cumulative payrolls for the first five months of 1965 were \$406.0 million, an increase of \$14.6 million over the same period in 1964.

Beginning with this issue of Federal Government Employment, the Economic Council of Canada is excluded from Part A - "Agency and Proprietary Corporations" and included in this Section as a departmental corporation. In the function analysis the organization is shown under General Government - Research, Planning and Development. In the administrative analysis it is included in the Departmental Administration Branch of the Secretary of State's Department and footnoted.

The principal month-to-month variations in staff strength, by function, are shown below:

Function	Administrative Unit	Change and Reason
Transportation and Communications:		
Highways, Roads and Bridges	Public Works	Seasonal increase of prevailing rate and casual employees due to the resumption of works projects under the Development Engineering Branch.
Natural Resources and Primary Industries:		
Fish and Game	Fisheries	Seasonal increase of prevailing rate and casual employees as fishery wardens; in hatcheries, etc.
Minerals and Mines	Mines and Technical Surveys	Seasonal increase of casual employees, new field parties on surveys

FEDERAL GOVERNMENT EMPLOYMENT

JUNE 1965

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April, 1965.

INTRODUCTION:

Federal government departments, corporations and agencies employed a civilian staff of almost 350,000 at the end of June 1965. This was an increase of 1.3% over May 1965 and 0.8% over June 1964. Payroll of these organizations for June 1965 was \$148 million, down slightly from May 1965 but up 4.1% from June 1964.

Payroll for the period January to June 1965 aggregated \$868 million, compared to \$822 million a year ago (5.6% difference). Cumulative payrolls for April to June were \$443 million in the 1965 period and \$418 million (6.0% difference) in the 1964 period.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

Staff of this group totalled 141,000 at the end of June 1965, an increase of 2,000 (1.6%) over May 1965 and less than one per cent above June last year.

Regular payrolls were \$65.6 million, \$1.2 million or 1.8% below May 1965 but \$2.2 million or 3.4% above June 1964. Major decreases in the payrolls, due to a decrease in the number of pay periods from three to two, of Air Canada and St. Lawrence Seaway Authority were offset by an increase in the Canadian National Railway's payroll and minor increases elsewhere.

Payrolls for the first six months of 1965 amounted to \$379 million compared to \$352 million for the same period a year ago.

FEDERAL GOVERNMENT EMPLOYMENT

JULY 1965

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April, 1965.

INTRODUCTION:

Civilian staff strength of the Federal Government, including its agencies and corporations, was 356 thousand in July 1965. This was 2 p.c. more than the June 1965 strength of 350 thousand and 1 p.c. greater than the July 1964 strength of 353 thousand.

Total payroll of these employees was \$153 million for July 1965, up 3 p.c. from \$148 million in June 1965 and 6 p.c. from \$145 million in July 1964. About 60 p.c. of the payroll increase over June 1965 is accounted for by the Part A Corporations and Agencies, see page 6.

Cumulative payroll for January 1 to July 31 was \$1,021 million in the 1965 period and \$967 million in the 1964 period. Payroll for the first four months of the 1965-66 fiscal year was \$596 million, up \$33 million, or 6 p.c., from the first four months of the previous fiscal year.

July 1965

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

Staff strength of this group was 144 thousand at the end of July 1965, 3 thousand (5 p.c.) more than the previous month and virtually the same as in July 1964. Total monthly payroll increased to \$68.6 million from \$65.6 million in June 1965 and \$64.6 million in July 1964. Most of these corporations and agencies had increases in both the numbers employed and the payrolls paid.

The increase in Part A payroll from June to July is mainly attributable to a 7 p.c. rise in the payroll expenditure of Canadian National Railways. A substantial decrease (29 p.c.) in the National Harbours Board payroll, due to the continuation of the employee strike, did not significantly affect the total Part A payroll.

Cumulative payroll for January 1 to July 31, 1965 was \$448 million compared with \$416 million in the same period of 1964. Payrolls for the first four months of the 1965-66 fiscal year amounted to \$264 million, \$18 million more than for the same four months of 1964-65.

(1) Excludes overtime payments to field parties of Mines and Technical Surveys except those on the east coast. Between April 1 to November 30, 1964 overtime payments to Prevailing Rate employees amounted to \$43,111 and between April 1 and September 30, Ships' employees received \$82,369.

(2) Includes payments to:

- (a) Prevailing Rates and Casuals of the entire department, and
- (b) Salaried employees of Defence Research Board.

Second quarter, 1965

Notes and Definitions:

This table is published four times a year, in the January, April, July and October issues of this publication.

The table shows for the three month period, by department and sex:

- (a) Average employment
- (b) Monthly average (pertaining to hirings and separations)
- (c) Monthly rate per 1,000 employees (pertaining to hirings and separations)

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees (indicated by *). The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates. However, aggregates for these departments are given in "Total-Departments with less than 100 employees", as well as in "Total-All Departments".

The following definitions apply to this table:

1. "Hiring" means the appointment of a person to a salaried position (as defined in the April, 1965, publication). Movements within a department are not considered as hirings.
2. "Separation" means the termination of service of an employee in the reporting "department" by leaving the Government Service or by transferring to another "department". Movements within a "department" are not considered as separations.
3. "Department", for this table only, is altered to include departmental branches or services having a separately administered personnel office.

Comments:

1. Fisheries - seasonal hiring of Fishery Wardens, mainly during April.
2. Dominion Bureau of Statistics - seasonal hiring of permanent and term professional staff, mainly in June.

April 1 to June 30, 1965

FEDERAL GOVERNMENT EMPLOYMENT

AUGUST 1965

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April, 1965.

INTRODUCTION:

Federal government departments, corporations and agencies employed a civilian staff in excess of 357,000 persons at the end of August 1965. This was slightly greater than in July 1965, and 1 p.c. above August 31, 1964.

Payroll for the month totalled \$153 million, virtually the same as July but \$9.9 million (7 p.c.) above the previous August. Cumulative payroll for the first eight months of 1965 amounted to \$1.2 billion, 6 p.c. above the same period of 1964, while aggregated payroll for April 1 to August 31 of the 1965-66 fiscal year was \$750 million, 6 p.c. higher than for 1964-65.

August 1965

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

There was little change during August in either the number of employees or the payroll of this group. Staff strength increased by 658 to 145,000 while the total payroll decreased \$0.4 million to \$68.2 million. This slight decrease was due mainly to fewer 'holiday' payments during August than in the previous month.

There was a slight increase in employees over August 1964 but a \$4.6 million or 7 p.c. increase in payroll.

Cumulative payroll for the period January 1 to August 31, 1965 amounted to \$515.8 million, compared to \$479.9 million for the same period in 1964. For the first five months of the 1965-66 fiscal year the payroll amounted to \$331.8 million, compared to \$309.7 million in the same five months of 1964-65.

August 1965

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

Employees of this group totalled more than 212,700 at the end of August 1965. This was slightly more than July and almost 4,700 (2 p.c.) above August 1964.

Total payroll of \$85.1 million was slightly above July and \$5.3 million (7 p.c.) over August a year ago. Payroll increases occurred mainly in regular payroll, although in August salaried employees of the Fisheries Research Board and National Research Council were paid \$279,000 in payments retro-active to October 1, 1965.

January 1 to August 31 payroll amounted to \$658.6 million in 1965, up 4 p.c. from \$630.4 million in the eight months of 1964. Payroll totalled \$417.8 million for the first five months of this fiscal year up 5 p.c. when compared to \$396.8 million for the April 1-August 31, 1964 period.

FEDERAL GOVERNMENT EMPLOYMENT

SEPTEMBER 1965

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April, 1965.

INTRODUCTION:

Civilian staff of the federal government decreased by 3,000 or 0.9 p.c. from 357,300 in August 1965 to 354,200 in September 1965 but increased 8,000 or 2.2 p.c. from the September 1964 staff strength (347,000). The September 1965 total payroll of \$174.7 million was \$21.4 million or 13.9 p.c. more than August 1965 and \$16.6 million or 10.5 p.c. greater than in September 1964. Details of increases and decreases of numbers and payrolls can be found in commentaries on Parts A and B.

For the period January 1 to September 30, cumulative payroll was \$1,349 million in 1965, up 6.4 p.c. from the \$1,268 million payroll of 1964. Cumulative payroll for the period April 1 to September 30, was \$924 million in 1965, a \$59.7 million or 6.9 p.c. increase over the equivalent period of 1964.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

Staff strength of this group was 143,100 at the end of September, down 1500 (1.1 p.c.) from the previous month and virtually unchanged from September 1964. Total monthly payroll decreased to \$67.2 million, \$1.0 million (1.5 p.c.) below the August payroll and \$1.4 million (2.0 p.c.) lower than the previous September.

Staff of Agency Corporations was up 6.1 p.c., from August 1965; Proprietary Corporation staff was down 1.7 p.c., but Other Agencies registered no change. Staff of National Harbour's Board in the Montreal area returned to normal strength following the recent strike which was reported in the August publication of this series. Decreases in staff occurred in all provinces but Prince Edward Island and Quebec, where there were small increases. Monthly payroll declined slightly (1.1 p.c.) reflecting the decline in numbers employed.

Cumulative payroll for January 1 to September 30 was \$583.0 million, compared to \$548.5 million for the same nine months of 1964. Payroll for the period April to September of the 1965-66 fiscal year amounted to \$399.0 million, \$20.7 million above the 1964-65 period.

(1) In addition approximately 230 employees are included in other provinces.

September 1965

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

Employees of this group totalled 211,100 at the end of September 1965, down slightly (less than 1 p.c.) from August 1965, but up 8,000 (3.9 p.c.) from September 30, 1964. Total September payroll was \$107.5 million, \$22.4 (26.3 p.c.) higher than in August and \$18.0 million (20.1 p.c.) over September 1964. Retroactive salary increases accounted for most of this gain.

Employment increased slightly in some provinces and decreased slightly in others when compared with August 1965. In contrast, payroll was substantially higher in all areas.

Retroactive payments covering several different periods ending at August 31, 1965 amounted to \$19.4 million. Some 62,000 employees benefited from these payments; 22,000 Postal employees received approximately \$7.6 million, while the remaining 40,000, consisting mainly of technicians, craftsmen, hospital staffs (ward aides, etc.), and the like, received the remaining \$11.8 million.

Students employed by summer survey parties of the Department of Mines and Technical Surveys were struck-off-strength largely in September. This accounted for a decrease of some 120 (10.8 p.c.) casuals. The decrease occurred in the Geological Surveys Branch, the Mines Branch and, to a lesser extent, the Administration Branch.

Cumulative payrolls January 1 to September 30, 1965 were \$766 million, an increase of \$46.1 million or 6.4 p.c. over the same nine month period of 1964. The April 1 to September 30 payroll was \$486 million in 1964 and increased to \$525 million in 1965, up \$38.9 million or 8.0 p.c.

FEDERAL GOVERNMENT EMPLOYMENT

OCTOBER 1965

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April, 1965.

INTRODUCTION:

Departments, corporations and other agencies of the Federal Government were staffed by 347.5 thousand civilian employees at October 31, 1965. This was a decrease of 1.9 p.c. from September 30, 1965 but was 1.9 p.c. over October 31, 1964.

The October 1965 payroll of \$154.0 million was down a substantial 11.9 p.c. from September 1965, due to a reduction in retroactive payments as explained in the Commentary re Part B of this report (see page 7). The October payroll was up \$10.9 million or 7.6 p.c. from October 1964.

Payroll from January through October aggregated \$1.41 billion in 1964 and \$1.50 billion in 1965, an increase of 6.5 p.c. The April 1 to October 31 cumulative payroll increased 7.0 p.c., from \$1.01 billion in 1964 to \$1.08 billion in 1965.

October 1965

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

There were 139.1 thousand employees in these organizations at the end of October 1965, a decline of 2.9 p.c. or 4.0 thousand from September but 0.7 p.c. or 0.9 thousand employees above October 1964.

Total payroll of \$66.6 million was \$0.6 million or 0.9 p.c. below the previous month, but \$3.8 million or 6.0 p.c. above the October 1964 pay of \$62.9 million.

The comparison of September-October payroll indicates a seasonal drop in payroll of those corporations in the transportation industry, a rise in payroll of those in the communications industry, and minor changes in payroll of those in other industries.

Cumulative payroll from January 1 to October 31, 1965 was \$649.6 million, compared to \$611.4 million for the same period of 1964. Payroll was \$465.6 million for seven months (April 1 to October 31) of the 1965-66 Fiscal year and \$441.2 million for the same seven months of 1964.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

Emergency Measures Organization was transferred from the Department of Defence Production to the Department of Industry, effective June 8, 1965. Commencing with this issue a footnote will indicate this transfer of administrative responsibilities and starting with the April 1966 publication, it will be listed as part of the Department of Industry.

The departmental organizations covered in Part B of this publication employed 208.4 thousand people at the end of October 1965. There was a minor decrease of 1.3 p.c. in total employment from the end of September, attributable mainly to a seasonal decline in casual staff. The October 1965 staff strength was up 3.1 p.c. from October 1964.

Total October payroll at \$87.4 million was 18.7 p.c. less than September (\$107.5 million). This difference resulted mainly from a drop of some \$19.4 million in retroactive payments. Comment appears in the September issue regarding the inclusion therein of substantial retroactive payments. In addition, a small decrease of 1.0 p.c. occurred in regular payroll as a result of reduced casual payroll.

Cumulative payroll of \$853.4 million for the first ten months of 1965 was 6.7 p.c. greater than the payroll for the like period of 1964. Aggregate payroll April through October was \$612.6 million in 1965 as opposed to \$566.5 million in 1964, an increase of 8.1 p.c.

Third quarter 1965

Comments:

Seasonal variations normally account for most changes in hirings and separations from quarter to quarter. For example, in the Department of Agriculture hirings are high in the second quarter because of the establishment and maintenance of spring projects. Seasonal activities in the agriculture field keep hirings up in the third quarter. Completion of agricultural activities in the fourth quarter results in a sharp decline in hirings. On the other hand, separations are low in the first and second quarters, high in the third, and taper off in the fourth.

Initiation of new programs in various departments, changes in organizational structure, and other non-seasonal variations frequently occur. The most notable during the third quarter of 1965 are:

Department	Variation	Reason
Civil Service Commission	Increased hirings	The formation of a "Language Training Section".
Comptroller of the Treasury	Increased hirings	Filled positions in Departmental Pay Offices, plus some new positions in the Superannuation Branch to apply the Canada Pension Plan to federal government employees.
Citizenship and Immigration	Increased separations	The absorption of the "Purchasing Establishment" of Citizenship and Immigration by Defence Production.
Defence Production	Increased hirings	
Finance	Increased hirings	Established positions, vacant for some months, were filled. Several new positions were established to maintain records on pensions of all individuals covered under the Canada Pension Plan.
National Revenue - Taxation	Increased hirings	New section established to maintain record books on operation of the Canada Pension Plan.

Notes and Definitions

Notes:

This table is published four times a year, in the January, April, July and October issues of this publication, presenting data covering the previous quarter. The table shows for each three-month period, by department and sex:

- (a) Average employment
- (b) Monthly average (pertaining to hirings and separations)
- (c) Monthly rate per 1,000 employees, (pertaining to hirings and separations)

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees (indicated by *). The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates. However, aggregates for these departments are given in "Total-Departments with less than 100 employees", as well as in "Total-All Departments".

Definitions:

1. Hiring: The initial appointment of a person to the reporting "department" whether as a new employee in the Government Service or by transfer from another "department". Movements within a department are not considered as hirings. For purposes of hirings and separations only, the term "department" as used above is broadened to include departmental branches or services having a separately administered personnel office.
2. Separation: The termination of service of an employee in the reporting "department" by leaving the Government Service or by transfer to another "department". Movements within a "department" are not considered as separations. For purposes of hirings and separations only, the term "department" as used above is broadened to include departmental branches or services having a separately administered personnel office.
3. Average employment: As used in the table on hirings and separations represents the mean monthly average number of employees in each "department" during the quarter.
4. Monthly average (as pertains to hirings and separations): represents the arithmetic mean i.e. one third of the actual hirings and separations for the quarter.
5. Monthly rate per 1,000 employees (as pertains to hirings and separations); the rate is computed by the following formula:

$$\frac{\text{monthly average (number hired or separated)} \times 1,000}{\text{average employment (during quarter)}}$$

July 1 to September 30, 1965

FEDERAL GOVERNMENT EMPLOYMENT

NOVEMBER 1965

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April, 1965.

Introduction:

November 1965 civilian employment and payroll of federal departments and corporations registered only small changes from October 1965. Total employment at 346.1 thousand in November 1965 was 1,400 (0.4 p.c.) less than October but was up 6,400 (1.9 p.c.) from November 1964. Total payroll (\$155.8 million) increased 1.2 p.c. over October 1965 (\$154.0 million) and 9.6 p.c. over November 1964, (\$142.2 million).

Cumulative payroll, January 1 to November 30, 1965 was \$1.66 billion, up 6.8 p.c. from the \$1.55 billion payroll in the comparable period of 1964. April 1 to November 30, payrolls aggregated \$1.23 billion compared to \$1.15 billion during the same period in the 1964-65 fiscal year.

FEDERAL GOVERNMENT EMPLOYMENT

November 1965

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

Employment in these organizations dropped 1.1 p.c., from 139.1 thousand in October 1965 to 137.5 thousand in November. These decreases were mainly seasonal layoffs and occurred in all provinces. There were 136.3 thousand employees in November 1964.

Total monthly payroll increased 1.9 p.c. from October (\$66.6 million) to November (\$67.8 million) 1965. The November 1964 payroll was \$62.6 million. The 1.9 p.c. payroll increase reflected a substantial increase (+ 31.9 p.c.) in Air Canada payroll due to a difference of one pay-period between the two months.

Cumulative payroll for January 1 to November 30, 1965 was \$717.4 million, compared to \$674.0 for the same period of 1964. Payroll for the eight months, April 1 to November 30, of the 1965-66 fiscal year amounted to \$533.5 million, \$29.7 million above the 1964-65 period.

(1) In addition approximately 230 employees are included in other provinces.

November 1965

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

Employees of this group numbered 208.6 thousand at the end of November 1965, a slight increase over October and 2.6 p.c. above the previous November strength of 203.4 thousand. An October-November comparison shows employee decreases in all groups but 'salaried'. Total payroll for the month at \$87.9 million, was slightly above October (0.7 p.c.) and 10.5 p.c. more than the November 1964 payroll of \$79.6 million.

Cumulative payroll for the January 1 to November 30, 1965 period was \$941.4 million, 7.0 p.c. or \$61.6 million more than for the like period of 1964. For the first 8 months of the 1965-66 fiscal year (April 1 to November 30, 1965) payroll aggregated \$700.5 million, compared to \$646.1 for the same 8 months of 1964-65.

A comparison, by function, with the previous month indicates a considerable decrease (16.4 p.c.) in the number employed under "Highways, Roads and Bridges" due to layoffs resulting from adverse winter weather conditions along the Northwest Highway System. This resulted in the release of both prevailing rate and casual employees. Under "Aid to Unemployed Employables" there was an increase of over 400 employees, both salaried and casual, reflecting the increase in requests for Unemployment Insurance Benefits under the 1965-66 Seasonal Benefit Period which commenced November 28. (For detail on the operation of the Unemployment Insurance Act, see the DBS publication Catalogue No. 73-001). "Parks, Beaches and Other Recreational Areas" were closed at the end of the season causing a 12.2 p.c. drop among salaried and casual employees.

FEDERAL GOVERNMENT EMPLOYMENT

DECEMBER 1965

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1965.

INTRODUCTION:

December 1965 civilian employment and payrolls of the Canadian Government were almost unchanged from November 1965. Total employment was down to 344.7 thousand from 346.1 thousand in November. December payroll was \$155.2 million. The current month exceeded December 1964 in both numbers (2.0 p.c.) and payrolls (7.4 p.c.).

Federal payroll for 1965 was \$1.81 billion, versus \$1.69 billion in 1964, a 7.4 p.c. increase. Between 1 and 2 p.c. of this resulted from a continuing gradual increase in the number of persons employed while the remaining 5 to 6 p.c. increase was due to salary revisions. The same two factors are evident in the April to December 1965 payroll of \$1.39 billion which was up 7.3 p.c. from \$1.29 billion paid in the same period of 1964.

Although monthly changes have not significantly altered total employment or payrolls, a few noteworthy changes did occur within individual organizations. Remarks relating to these can be found in the commentaries re Part A (page 6) and Part B (page 7).

December 1965

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

Total December 1965 employment (136.7 thousand) and payrolls (\$66.8 million) of Crown Corporations included in Table 2 (Part A), changed only slightly from November 1965. The month-to-month comparison indicated a decrease of 0.6 p.c. in numbers and 1.6 p.c. in dollars; the year-to-year comparison indicated employment was up 0.7 p.c. and payroll 4.7 p.c.

Seasonal declines in staff strength occurred in those corporations involved in transportation activities.

Payments were higher than normal due to several factors: (a) Some corporations made lump sum payments for overtime and retroactive salary adjustments, (b) An extra pay period for staff of Polymer Corp. occurred because there were three fortnightly paydays instead of the normal two. (Note: Air Canada payroll in December was lower than in November because the third fortnightly pay occurred in the earlier month).

Annual payroll was \$784 million in 1965 and \$738 million in 1964, up 6.3 p.c. Payroll April to December was \$600 million in 1965 and \$568 million in 1964, up 5.7 p.c. These payroll increases can be attributed to salary revisions and additions to staff; no organizational units with sizeable payroll were added to or deleted from the coverage of this publication during the year.

Over 90 p.c. of the total payroll was accounted for by: (1) Canadian National Railways, (2) Air Canada, (3) Canadian Broadcasting Corporation, (4) Polymer Corporation, (5) Atomic Energy of Canada Limited and (6) National Harbours Board. Their combined payroll was \$715.7 million in 1965, up 6.2 p.c. from that of 1964 (\$674.1 million).

December 1965

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

Only minor changes occurred in the staff strength and payrolls of these organizations between November and December 1965. The employee count at 208.1 thousand and total payroll at \$88.4 million were virtually unchanged from November. However, compared to December 1964, numbers were 2.9 p.c. greater and payroll 9.6 p.c. more.

A functional analysis of the data indicates the following fluctuations in employment: "Highways, Roads and Bridges" down 6.1 p.c. and "Waterways" down 4.4 p.c. There was a 13.1 p.c. drop in "Fish and Game" employment, while that under "Aid to Unemployed Employables" increased 4.8 p.c.

Payroll for the calendar year was \$1.03 billion in 1965, up 7.2 p.c. from the 1964 payroll of \$0.96 billion. The April to December payroll aggregated \$789 million in 1965 as opposed to \$727 million in 1964, an 8.5 p.c. increase. General salary revisions which increased departmental payrolls are reported in the September 1964 publication involving some 63,000 salaried employees, in the April 1965 publication for another 2,700 salaried personnel, and in September 1965 for approximately 62,000 salaried staff. Each of these salary increases has a continuing effect on federal government payroll.
